President and Director

Dear President Trump,

March 11, 2020

Thank you for your enormous courage in the face of almost total opposition from so many in the Media, Academia, both Parties, and “The Deep State”, of the Swamp which you are heroically draining. You are the hardest working, most effective president of my lifetime and we deeply appreciate all you are doing for our great country.

Full disclosure: I'm an old JFK Democrat but that party left me a long time ago. I voted for you and I have been very grateful for your no-nonsense leadership.

After more than 43 years treating tens of thousands of patients with a benign Orthomolecular nutritional methodology, I have an economic, simple recommendation. Since the FDA, CDC and NIH have no approved treatment for COVID-19 I recommend this Orthomolecular protocol for compassionate use until there is an approved medical treatment by the FDA for mainstream medicine. This would prevent needless deaths and augment the patients' immune systems to fight the virus.

A similar treatment has been successfully pioneered by Linus Pauling, Ph.D., (my doctoral advisor) and used successfully by Fred Klenner, MD and Tom Levy MD, JD. Their work has been well documented in the literature for other viruses including: Polio, Ebola, and multiple Flu viruses etc.

Sincerely,

Kenneth J. Emonds, Ph.D. Fellow American Academy of Environmental Medicine
