Kenneth J. Emonds, Ph.D., D.A.P.A., A.F.A.A.E.M.

President and Director

## A D D E N D U M

Another recommendation is in regard to the economic fallout from this illness and the general welfare of the nation: Scrap the tax code and put in a 15% flat income tax on every person and every tax entity. Those making under \$15,000 per year would be exempted. The Supreme Court has ruled that corporations have the same constitutional rights as a person so tax them the same. 15% off the gross, no deductions whatsoever except the individual social security and Medicare. Charitable organizations and 501-C would continue their tax exempt status.

Please pass this by Larry Kudlow and have him run the numbers. This would certainly encourage corporations to return to the U.S. – if the corporate rate were an honest 15%. This may eventually pay off the national debt.

Polls show 83% of both Democrats and Republicans voters favor this. Only Congress does not favor this plan because it prevents their legalized bribery through lobbyists.

Sincerely,

Kenneth J. Emonds, Ph.D. Fellow American Academy of Environmental Medicine.
